

Class/ Year: Year 2	Start Date: 7 th September 2026		Finish Date: 16 th October 2026	
	 	Hook: Children will explore the shape of the Isle of Wight, landmarks across the Island and use our own location to begin to understand the scale and size of the world and our place in it.		
		Rationale: Using geography map skills, scientific reasoning, observation and their own experiences, the children will explore the size and scale of the world and begin to think about our place within it and how animals and humans interact with, adapt to and transform our planet.		
		Outcome: Children will be able to name the countries of the UK, continents and oceans of the world. They will be able to describe ways in which animals and plants are similar and different and what living things need to live.		
My World	Main Focus Area: Geography Children will use maps to find continents, oceans and countries around the world. They will learn the difference between weather and climate. They will discuss climate zones and they will learn about some of the plants and animals that belong to each of the continents and climate zones.		Supporting Focus Area: Science Pupils will develop their understanding of animals including humans, how young animals change and develop as they grow into adults and what the basic needs of living things are. Out and About: The children will visit different landmarks and habitats across the Isle of Wight, linking these to where they are located on a map. At each landmark they will explore the "dots" they can make. They will also use Isle of Wight locations to learn about animal needs and living things.	
	Discrete Teaching Programmes: Reading Phonics Spelling Handwriting Mathematics: number, place value, addition and subtraction Music RE: belonging PE - ball skills English: George's Pet Dragon Computing - Using computer technology PSHE: families, friendships and belonging to a community DT: mechanisms to make moving pictures Art: The dot, developing art skills
