

Art week SUMMER 2 WEEK 2:

We are going back to 1914 - the year Earnest Shackleton and The Endurance set sail from England to Antarctica. World War 1 was a few weeks away and the way of the world was about to change very dramatically; those on board this extraordinary expedition knew nothing of the war - being stuck in various parts of Antarctica for over 2 years, with no radios/phones or forms of communication, meant it was all a big shock/surprise.

Your task is to draw items from 1914; here are some ideas. Go to BBC Bitesize KS2 World War 1 - lots of images and information)

- You could choose people and their clothing - maybe a family.
- You could have a go of drawing the Endurance.
- You could draw vehicles from the time like cars or buses or boats (maybe compare what the East Cowes to Cowes floating bridge looked like compared to today.
- What did telephones or radios look like?

I have included a few visuals below to get you thinking/started.....
