

Art week SUMMER 2 WEEK 4:

This week, it is space art.

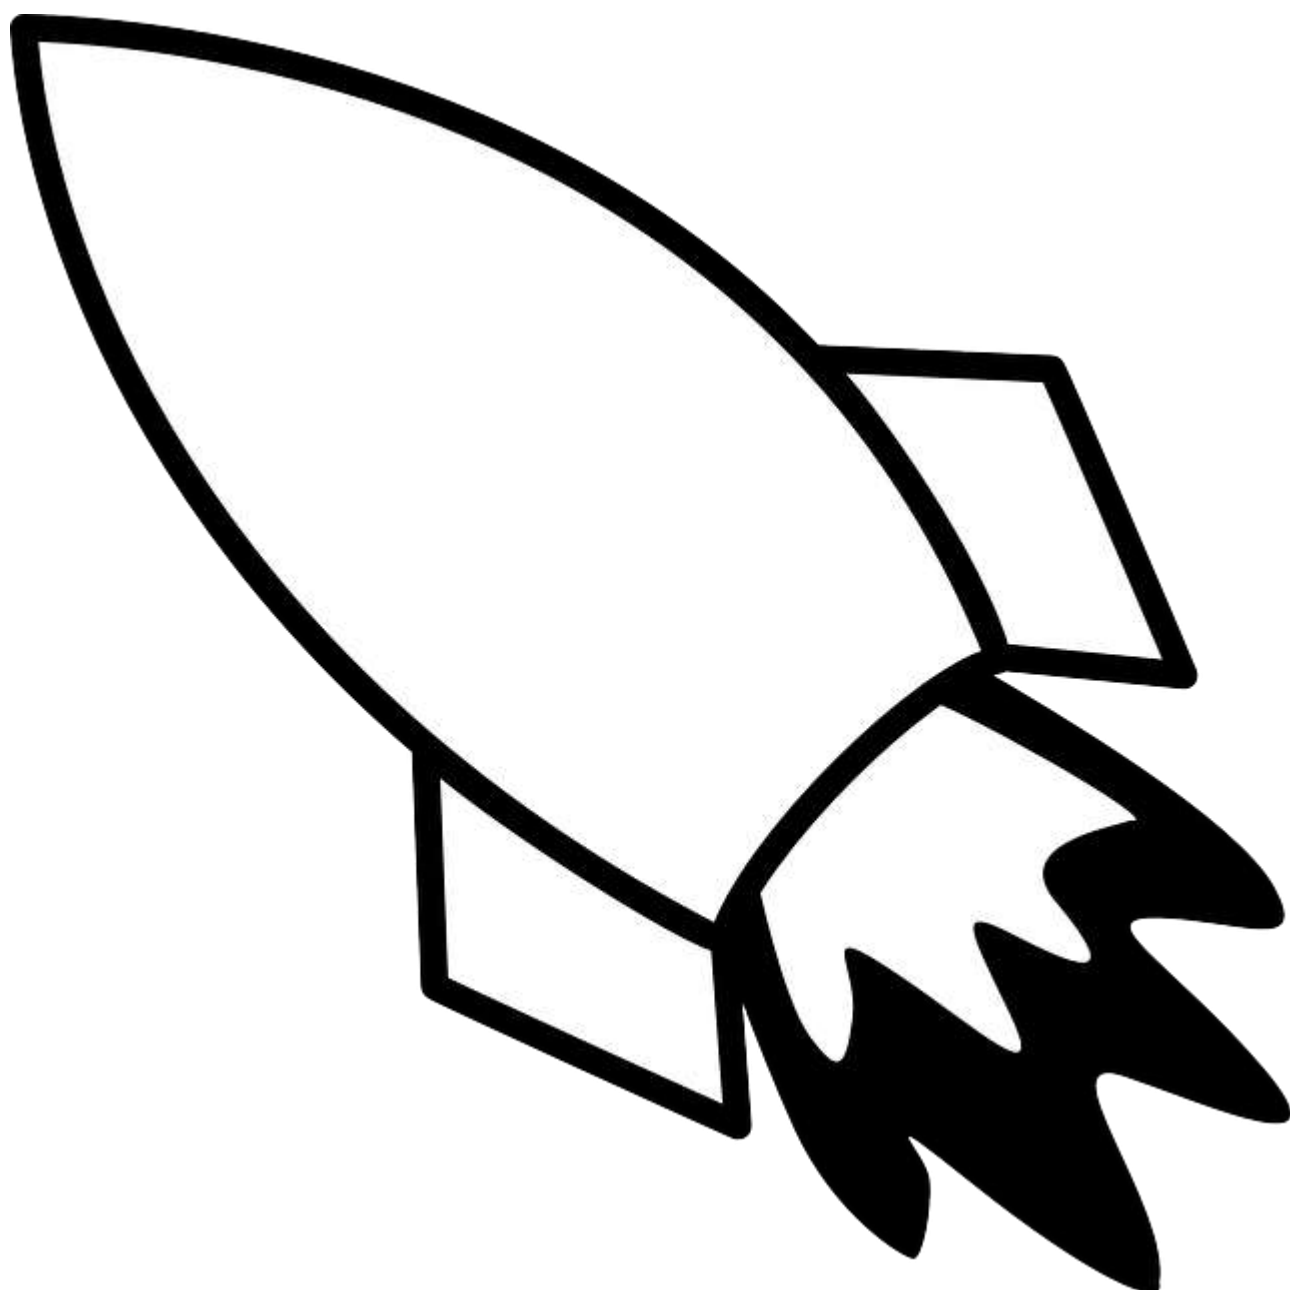

Task; to design/draw a rocket in space.....

I have included a few visuals below to get you thinking/started.....but of course, you can design/draw your own. Some of the visuals have colours.....but again, your ideas will be better.

You can use crayons, felts, paints or a mixture; one idea I have used before is to cut up some coloured paper - any sort (even from magazines) and make a mosaic (1cm squares); the finish is quite different but effective and eye-catching.

On one of these templates, there is a place to write one of your poems.....

Happy rocket making.....
