Year Group:

School:

**Your warm up this week is Battleship, with a twist!**

**The aim is to find all the hidden Battleships in the Water.**

1. Place a marker in front of you as your starting point
2. Take 10 giant steps forward and place your 12 pieces of paper on the floor
3. Put x1 ship on 5 different pieces of paper, you can use the ships opposite (or you can draw your own, which is more fun!)
4. Put a W on the rest of the paper for Water

Move from your marker to the pieces of paper and turn over one piece of paper and try to find a 'Battleship' Move back to the marker and keep going until all the Battleships have been found. If you find a W you found WATER!

Each day can you change the way you are moving between the marker and the pieces of paper, can increase the amount of WATER around the Battleships.

Battleship

Aircraft Carrier

Submarine

Destroyer

Small Ship
