

Monday: Introduction and supporting video. Do you want to build a snowman?	<a href="https://vimeo.com/486859385">https://vimeo.com/486859385</a>
Tuesday: Snowflakes, snowflakes all around	<a href="https://vimeo.com/486862862">https://vimeo.com/486862862</a>
Wednesday: Wrap up warm	<a href="https://vimeo.com/486864229">https://vimeo.com/486864229</a>
Thursday: Dashing through the snow	<a href="https://vimeo.com/486865807">https://vimeo.com/486865807</a>
Friday: Special delivery	<a href="https://vimeo.com/486866946">https://vimeo.com/486866946</a>

Hi folks!

This week, we are having a break from learning new number skills. Instead, children will be consolidating the skills learned so far and deepening their learning in the process. Each day, the video will explain and talk children through a series of activities, which can be accessed and/or recorded in a variety of ways. Some activities can be discussed, while others need only a pencil and plain paper to record. We are providing you with a useful tool kit, which includes a number line to 20, 2 tens frames (suitable for 2-digit numbers) and a cherry diagram. Please click on the video link each day to access the teaching videos. Please encourage your child to work independently but support if required to do so. Have fun!
