

Week 1 Fluent in five and Learning for the week

Fluent in five

1)

60×19	

2)

$7685 - 897 =$ (show as a formal calculation)

3)

$98 \times 65 =$ show your calculation using the formal method

4) Write the equivalents of 25% as a fraction and as a decimal

This week's learning objective

Round decimals with two decimal places to the nearest whole number and to one decimal place

Using this link- <https://whiterosemaths.com/homelearning/year-5/> work through WEEK 2– there is a lesson to work on each day.

You need to watch the video and give it a go! (if unsure watch the video again) still unsure message me and I will support you through this.

If you are getting the questions correct then move on to the attached questions (the same structure as in class)
