Number and Place Value

To read and write numbers to at least 1000
in numerals and words

1. Write the numbers in words.

435

257

390

468

1000

2. Write the numbers in numerals.

six hundred and fifty - two

seven hundred and four

two hundred and thirty

one hundred and four

nine hundred and eighty - seven

3. What number is represented by the picture?

Write it in numerals and words.

Number and Place Value

To identify, represent and estimate numbers using different representations

3

1. Write the number the picture represents.

100s	10s	1s

2. How would you represent the number 247?

3. Place the number 200 on the number lines below.

Number and Place Value

Solve number problems and practical problems

3

1. Which alien holds the box that will balance the scales?

2. Each corner of the shape has to total the number in the middle. Each number for one shape has to be the same. What are the missing numbers?

3. The numbers in each shape add up to 250. Add the missing numbers.

Number: addition and subtraction

Add and subtract numbers mentally: a three-digit number and ones a three-digit number and tens a three-digit number and hundreds

3

1. Calculate the number sentences.

$$456 + 7 = \boxed{}$$

$$236 - 8 = \boxed{}$$

$$4 + 127 = \boxed{}$$

2. Fill in the missing numbers.

	456	340	678
Add 2	<input type="text"/>	<input type="text"/>	<input type="text"/>

	456	340	678
Add 20	<input type="text"/>	<input type="text"/>	<input type="text"/>

	456	340	678
Add 200	<input type="text"/>	<input type="text"/>	<input type="text"/>

3. Calculate the number sentences.

$$10 + 789 = \boxed{}$$

$$236 - 100 = \boxed{}$$

$$924 - 30 = \boxed{}$$
