

Foundation Stage Weekly Newsletter

Dear Parents and Carers,

We hope you have a super long weekend, see you all on Tuesday.

How to Improve the Home Learning Environment

Your home is a very important factor in your child's development. A recent government document (see the summary on the back of this letter) suggests that there are 3 simple ways to improve behaviour at home

- **Chat**
- **Play**
- **Read**

Please take the time to chat, play and read with your child at home.

Forest School

On The Patch this week the children had the opportunity to climb a tree using the tree harness. Please ask your child about their experience. You could upload their comments onto Tapestry, we would love to hear from them.

There will be no Forest School sessions on The Patch next week, they will continue the following week.

Please let us know if you would like to volunteer on The Patch, all we need from you is a clear DBS check and a love for nature and children's learning. The children love the sessions, as do we and we are sure that you would too!

If you have any questions or concerns please do not hesitate to speak to one of us. Thank you in advance for your co-operation and support,

The Foundation Stage Team
