

Year 5 'At Home' Homework

In case Queensgate has to close early for Easter, here are some activities for Year 5 children to be doing, in order to keep progressing with their learning.

- Daily reading.
- Going on Prodigy - all children have their logins.
- Going on times tables Rock stars - all children have their logins.
- Practice handwriting - make shopping lists etc

Each child will also have a plastic wallet pack containing;

1] Comparing the UK and The Caribbean - one is pictures, one is a venn diagram - this will be the topic for the first part of the summer term.

2] As part of the above, make some notes about life in the Caribbean - things like housing, clothing, jobs, sport, food/drink, industry etc.

3] Write an exciting story, using the fantastics, around this image; use some of the skills taught to you like parenthesis, expanded noun phrases (adjective, adjective, noun), idioms. Use paragraphs, speech - not too many main characters.

4] Produce some art (your choice of subject); it could be a mixed media or it could it be a collage using different materials or just a felt tip or crayon picture - we'll display when we return to Queensgate.

5] Some other learning sites include; Topmarksmaths www.topmarks.co.uk or try BBC Bitesize - KS2 (this could be good for Caribbean research).

But most of all, stay safe and healthy.

Mrs Adams, Mr Giles and team.
