

Year 6

Le Monde - The World

Make sure you have the sound turned on before you start so you can hear how the French words are pronounced.

Watch a videoclip on Espresso:

https://central.espresso.co.uk/espresso/modules/t2_le_monde/video_countries/video_countries.html#res

It talks about a few of the countries in Europe.

Which ones?

Listen again and look at the script. Can you find out one fact about each of the countries it mentions, just from watching the clip? Don't worry if you have to watch it several times. Type words and phrases into the internet to find out what they mean in English. Use the Talking Dictionary to help you too: there's a button at the left-hand side, or use this link -

https://central.espresso.co.uk/espresso/modules/t2_le_monde/talking_dictionary/talk_countries.html

On the powerpoint 'French Countries', there is a map of Europe that takes you step by step through each country, its French name and its capital. Have a look.

If you have a printer you could print it out choosing 6 or 9 slides to a page (2/3 sheets), or choose one country slide to print, then colour, and/or label all the countries.
